Record cold brings highest winter electric power usage

BY DENA BISNETTE

Freezing temperatures in Hancock County early this week caused record demands on utilities and closed area schools.

New winter consumption records were set for both of the electric companies that include Hancock County in their service areas.

At Coast Electric Power Association, General Manager Henry Thomas said, "We had the highest load on our system we've ever had in winter, which indicated that a lot of people were running heating systems and appliances.'

He said winter electricity con-

The new statewide record for Mississippi Power Company was set at 1,310 megawatts at 9 a.m. Monday, according to Media Relations. Director John Hutchinson.

The old record was set last January at 210 megawatts, Hutchinson said.

To keep up with demand, Mississippi Power had to add its smaller plants at Meridian and Hattiesburg to the two large plants it usually operates, he added.

He said the new winter record remains lower than the summer record, which was set last summer at 1,421 megawatts.

Both utilities reported some isolated power outtages but no major problems. Most of the outtages. occurred when transformers went

"I think the biggest thing that saved us from having more outtages was that there was very little precipitation with this front." Hutchinson commented:

"Usually precipitation freezes on the lines or the tree limbs above them, causing the lines to fall or the trees to fall on them."

The lack of freezing precipation on lines may have also helped South Central Bell, which reported only limited outtages in telephone service, according to District Manager Don Roberts.

The city had no problems with its water supply because it was monitored throughout the freeze but the utility department has received numerous calls about frozen or broken pipes.

"Our crews have been working 24 hours a day for the last couple of days, and we've had about 400 calls," Redmond reported.

More problems with pipes are extemperatures rise and when weekend residents check their homes.

The sewer department had minor problems with a pump that froze on Easterbrook Street, but another pump was used to compensate, Redmond added.

In Waveland, Utilities Manager Thelma Exnicious said crews worked until 10 p.m. Tuesday night to repair broken water pipes, including one in Waveland City Hall.

The utilities system also showed a drop in pressure created by increased demand, she added.

Although local law enforcement agencies reported no accidents or traffic problems related to the weather, both the Bay St. Louis and Waveland Police Departments reported receiving numerous afterthree hours Monday morning, but hours calls about frozen or broken water pipes or other utility problems.

Schools all over Hancock County closed Monday with the exception of St. Stanislaus College, which operated as usual but without some boarding students unable to return from weekend trips due to the weather.

Bay St. Louis schools remained closed Tuesday, while Hancock County schools reopened at 10 a.m. Tuesday rather than 8 a.m.

Police to get identifying lights for unmarked cars

By BRENDA HEATHCOCK

To avoid further problems with the use of dashboard blue lights in unmarked police vehicles, Acting Bay Police Chief Murray Ladner has ordered lighted identification for the city's unmarked police cars.

Ladner expects the 12-inch bar lights with the lettering "BAY POLICE" to be delivered in less than two weeks. A light has been ordered for each of the city's four unmarked vehicles.

The light will be placed on top of the car to identify the vehicle as an official police car when an officer is attempting to stop a motorist.

'We came up with this idea to protect both the citizens and the officers," Ladner said.

"It is not only dangerous for motorists but also for officers who may be shot because a person is afraid of being robbed," he added. People do not know whether or not

to stop because of the recent incidents of robbery by persons using only blue dash lights to stop morotists, Hancock County Sheriff Ronald Peterson said.

The problem of the blue dashlights in unmarked vehicles came to the attention of local law officers because of a Saturday morning armed robbery of Pearlie May Jones of Westwego, La by a man driving a car with a dashboard blue light and similar robberies in December near Jackson. Peterson and Waveland Police

Chief Donald Dorn said they believed most law enforcement officials would be understanding if a motorist did not immediately yield to a blue dashlight, especially if it was on a dark or lonely stretch of road. "If a person is being stopped for

speeding, it is a misdemeanor and an officer is not going to force someone off the road or shoot at them," Dorn said. "The way things are, you don't

know who can have a blue light and I don't blame anyone, expecially women for going to a lighted area before stopping," Dorn added, Ladner, Peterson and Dorn said

that they personally would not stop in a dark or deserted area for an unmarked vehicle with only dash blue

"I've told my wife, that if we have to pay an extra ticket, we will, but she is not to stop for dash blue lights in a deserted area," Ladner said. According to Lt. Col. Kenneth

Dukes, assistant chief of the Mississippi Highway Patrol, a person is required to "slow down, pull to the right side of the road and stop any time they see a vehicle behind them with a blue light flashing," Failure to yield to a blue light is a

traffic violation and a person can be BLUE-Page 6A

Annunciation School to be closed May 29

BY DENA BISNETTE Annunciation Catholic School in Kiln will close permanently on May

According to the school's principal, Sr. Lorraine Blanchette, a registration drive that might have kept the school open failed.

If a 131-student registration quota had been met by Tuesday, their tuition fees and money raised by a parents' committee would have enabled Annunciation to continue operating, she said.

The school had been funded since 1963 by the Trinitarian Missionary Order, but school officials were notified in September that funding would be discontinued at the end of May 1985.

Contributions to the Trinitarian order have declined in recent years and have been diverted to programs for assisting the needy.

Weather is the big topic of discussion in our area this week. Of course, ours is not the only area with weather problems.

It appears that Monday's temperatures were record setting for Hancock County with reports of recordings from a few degrees below zero to a few above.

Our area was fortunate in that we did not lose power like our Louisiana neighbors, although gas pressures were so low many homes were without heat for a time.

This caused many heaters with automatic pilots to not operate until being re-lighted. This caused a lot of problems for some of our older residents.

United Gas, we are told, informed City of Bay St. Louis officials after the Christmas 1983 severe cold when pressure was lost, that the problem would never occur again.

It appears someone at United Gas must have been sleeping on the job Monday morning.

Many water pipes have been split by the freeze and this taxes the water systems, especially when the water continues to run.

We are hoping everyone will turn or have their water turned off, until broken pipes are repaired.

There are some folks who like cold weather, and we hope they have gotten enough of it, because we are looking for good old summer time.

It was sad news from Kiln on Tuesday when it was announced that Annunciation School would no longer continue after this session.

School officials say there just aren't enough students registered to continue operations of the

Kiln Community had a school for probably a hundred years or so, with Kiln School System prior to Annunciation.

We are hoping something will change and Annunciation School could continue next Fall, we know there are many parents of students who are greatly concerned.

Care of Ailing Elderly

Proper care of the mouth and an appropriate diet can be very important for the elderly during a time of illness, according to Dr. Edward M. Lowicki of Jackson, a member of the Mississippi Council on Aging.

"Consider how hard it is to eat if your mouth is dry, your tongue cracked, lips sore and gums hurt." Lowicki said.

"Mouth care is crucial to good nutrition. Teeth should be brushed daily, at least once and preferably twice. Lips should be rubbed with petroleum jelly. Gums and tongue should be wiped with lemon glycerin swabs," he said.

"If possible," Lowicki added, "breathing should be through the nose, with the mouth closed to avoid the drying effect of constant air flow over moist membrane linings."

Patients on highly potent medication prefer fish and chicken to red meats, he said. "Beef seems to have a metallic taste to malnourished pa-

THE LONELY VOICE

OF ONE COUNTY SUPERVISOR A first-term Hinds County super-

visor has offered suggestions worthy of consideration by the state's other 481 supervisors. Thoughts of Supervisor, Frank

Bryan came at a board meeting several days ago in Jackson. First, said Bryan, his full-time job as a supervisor is "obsolete."

There is no reason in this day and age, explained Bryan, for a county supervisor to spend his time as a "road foreman."

The responsibilities of the job, he added, can easily be hanc .c on a part-time basis. It should be noted that the position of county supervisor was intended as a part-time position from the beginning.

Then, said Bryan, many of the jobs presently being performed by the county can be more efficiently performed by contracting to the private sector

Bryan mentioned filling county road pot holes as a specific example, pointing to the savings of thousands of dollars in his own district through privatization and committing

himself to following that course Finally, Bryan said again, as he has said many times in the first year of his administration, the time has: come for Hinds County, and other counties as well, to move to the unit

system for county road operations and for abandoning the wasteful beat-by-beat road systems under which most counties operate five reparate road departments.

Eryan's comments come as supervisors from over the state converged on Jackson for a series of meetings.

It took courage for one supervisor to stand up against the overwhelming number of county, supervisors who are committed to the wasteful. extravagant poor management practices of the past.

Frank Bryan deserves commendation and support from all Mississippians who are interested in better government and in better use of taxpayers' dollars.

Mayor's logic on refusal to issue clinic license could lead to closing of churches

Jan. 15, 1985 Editor

The Sea Coast Echo Bay St. Louis

To the Editor:

Bay St. Louis Mayor Bennett's actions as reported in your Jan. 13 issue regarding the New Woman Medical Center are absurd. According to the article Mayor Bennett refused to issue a license for the center because other clinics as close as Pensacola, Fla. have been bomb-

It follows that since Sister Mary Jude Marlboro was shot in St. Rita's Catholic Church in New Orleans,

Mayor Bennett should immediately close all churches in Bay St. Louis. Fortunately, my church affiliation is outside the city limits and Mayor Bennett's jurisdiction, I should hope that people who run legitimate businesses, either profit or nonprofit, be allowed to operate according to law, letting the people decide whether or not to partronize them. Harrassment of women's clinic drives up medical costs

Jan. 18, 1985 Editor

The Sea Coast Echo Bay St. Louis

To the Editor:

I wish to express my full support and appreciation to the New Woman Medical Center in Bay St. Louis. The center provides convenient low-cost health care service to the women of this community. For those who don't know, they provide many community health care services including physicals, VD testing and family planning, as well as, pregnancy termination for which they have been recently chastised by the moral minority.

On Sunday, Jan. 13, The Sea Coast Echo reported Mayor Bennett's appalling attempt to withhold license renewal to the center. The mayor's actions are clearly a legal issue of interfering with free enterprise, but ultimately it is an attack on women's

rights. If he fears violence, it would seem to be more in the interest of public safety to increase security and stop harrassment of patrons of the center by possibly illegal, intimidating picketing precedure by protestors.

If you close every business for fear of possible violence, you would have to close all schools, airlines, banks, etc. etc.

I will think twice before reelecting any mayor or councilman who is unwilling to protect public and personal rights.

These attempts by a public official to cause a local business harrassment, loss of operating expense and the legal expense involved in defending their right to operate hurts each of us —it drives up medical costs.

Again, my sincere thanks to the competent staff and administrator of the New Woman Medical Center as they brace the picket lines and self-opinionated politicans to provide quality, sensitive and caring medical services attuned to the needs of the women of this communi-

\$35 per square foot is enough to spend for classroom space

Sea Coast Echo Bay St. Louis

Dear Editor:

I recently read in the Echo where our learned schoolboard has approved the building of six classrooms at Gulfview School. How?

I don't recall voting on this project. Many people in the Lakeshore area have for years asked for a high school in this area, but no, it had to be voted on "countywide."

Everyone knows the results of the vote-defeat by the north county populace.

Now we are faced with paying \$330,000 for six classrooms. God knows they are needed. But at \$55,000 apiece?

I don't know the exact size of the planned classrooms but 900 square feet apiece should be a fair estimate. This would be a 30-foot by 30-foot

This comes to \$61 per square foot. Any citizen could build a house—with carpet, A/C, wallpaper. no-wax floors, paneling, fireplace and other expensive equipment—for \$35 per square foot. In my recollection, all we have in

our Gulfview classrooms are cheap asphalt tiles on the floor and sheetrock walls and ceilings. Why \$61 a square foot? If we had the power and support

we could possibly veto this \$330,000 bid and get a more realistic bid from a local carpenter. I know many who have to com-

Baptist leader feels state lottery a bad bet

Jan. 17, 1985 Editor

Lamar County News Purvis, Ms 39475

Dear Editor:

The legislature of the state of Mississippi is considering several proposed constitutional amendments which would create a state lottery. The proponents of such a scheme speak of "instant millionaires" and depict a rush to the "mother lode" of wealth and financial security. But it must be asked,."Do the facts really point to the conclusions so glibly asserted?"

It has been claimed that more than \$60,000,000 would have been annually created in new revenues if the 1984 Mississippi legislature had passed a proposed constitutional amendment and allowed the citizens to vote on it. But has anyone asked the source and support of such a figure?:

This \$60 million figure was first presented to the legislature by an employee of Scientific Games, Inc., of Norcross, Ga., which is the largest producer of lottery machines, equipment, and tickets in the United States.

The claim was made to an "educational and informational" hearing of the Constitution Committee of the Mississippi House of Representatives. No opponent of the proposal was even allowed to testify, much less counter these absurd claims.

This employee of Scientific Games, Inc., whose objectivity might be questioned, used statistical data from Maryland to draw his conclusions. He said that Maryland, a small, highly urbanized state whose primary business is commerce and industry, was the first state to compare to Mississippi, which we all know to be a large, mostly rural oriented state whose primary industry is agriculture.

He also said that to produce revenue of over \$60,000,000 for our state, \$150,000,000 would have to be spent on the purchase of lottery tickets. That comes to well over \$90 for every person in Mississippi 18-years of age and older. And if I don't, someone else will have to spend over \$180 to make up for me. More realistic conclusions drawn

from states whose population, per capita income, and economic base more closely parallel Mississippi would indicate that the tax dollar to be realized would exceed \$25 million and could be as low as \$5.5 million. This is hardly the windfall set

forth by an employee of the company who would sell the equipment to the state and would profit more from the legalization of lottery than any other person or group.

But what about us —the potential instant millionaires? The participants in the Illinois State Lottery had a statistical probability of winning of one chance in 9 million. This is interesting, since the Na-

tional Weather Service tells me my chance of getting struck by lightning is one chance in 3 million. In other words, I have a three times better chance of getting hit by lightning than in winning the lottery game. Furthermore, where will this

'new revenue'' come from? Will it come from new money from some hitherto undisclosed source? Or will it not be "new revenue" but simply

the redistribution of the fixed amount of money already in our state?

The legalization of a state lottery does not suddenly cause any of us to have any new money to spend. We will simply take what we are presently spending on food, housing, clothes, entertainment, and other real goods and services and spend some or all of that on lottery tickets.

And the losers are not just those who don't win but the merchants and other business and professional persons whose source of income is reduced in an amount equal to the cost of the lottery tickets purchased.

This reduction in sales and services produces less sales tax, less business income tax, less revenue from all sources, and this reduces the amount available to be spent by our government on such services as health and education.

How do the advocates of a state lottery dare talk about "new" revenue? They simply want to take from the businessman to fund a very high-risk giveaway program.

Finally, we are told the money will be earmarked (whatever that may mean) for education. But what type of education? And when would the funds be available?

The proposal before the legislature last year would have all revenue to be put into a "fund" the interest of which (the principle would never be used) would have been available after 1988. When viewed in this light, does education really stand to win? Or are we being misled as we were in 1966 when we were told that if alcohol were legalized, all the revenue would go to education.

But somehow the legislature put it all not into education but into the general fund and education in Mississippi still hurts.

Lottery is not what the proponents claim. It is, in fact, a system designed only to the advantage of the corporations who sell and service the equipment. Perhaps that is why they are the

---I Peter 4:11

By W. Edwin Kearley, Minister 501 Pine St. Bay St. Louis

FAITH (PART II) By Edwin Kearley In the New Testament, faith is

spoken of in two senses. (1) The revelation of God through inspired writers is called the faith. Jude wrote, "Beloved, when I gave all diligence to write of the common salvation, it was needful for me to write unto you and exhort you that ye should earnestly contend for the faith which was once delivered unto the saints." (Jude 3)

All of the inspired men received a united message, "the faith." The skeptics have sought to array one inspired writer against another. This cannot be successfully done. One author may give information another author did not but this is not a contradiction but rather supplementation.

Paul speaks of the revealed faith, "For I am not ashamed of the gospel of Christ: for it is the power of God unto salvation to every one that believeth to the Jew first, and also to the Greek. For therein is the righteousness of God revealed from faith. (Rom. 1:16-17) The 'faith once delivered' is the gospel of Christ." In this gospel is revealed the righteousness of God.

(2) Paul taught, "So then faith cometh by hearing, and hearing by the word of God." (Rom. 10:17) The faith revealed becomes faith in the individual toward God and Christ when the word of God is studied with an open and receptive mind.

Concerning the gospel and its reception Paul said, "For after that in the wisdom of God the world by wisdom know not God, it pleased God by the foolishness of preaching to save them that believe." (I Cor. 1:21)

It is not the preaching of foolishness which produces faith but the skeptics call the preaching of the death, burial, and resurrection of Christ foolishness.

Paul said, "We preach Christ crucified, unto the Jews a stumbling block, and unto the Greeks foolishness; but unto them which are called both Jews and Greeks, Christ the power and wisdom of God." (I

The Jews believed in God but they were blinded by their tradition. This kept them from believing in Christ.

The Gentiles were worshipers of heathen gods. They had many dif-Each god for a different function. Therefore, they looked upon the God Paul taught of as foolishness. Men have not changed

Faith comes from teaching. Jesus said, "No man can come to me, except the Father which hath sent me draw him: and I will raise him up at the last day. It is written in the prophets, and they shall be all taught of God. Every man therefore that hath learned of the Father, cometh unto me." (John 6:44-45)

The drawing power of Jesus comes through hearing the truth of God taught. When man learns, he comes to Christ.

Paul speaks of the origin of faith when he says, "For whosoever shall call upon the name of the Lord shall be saved. How then shall on him in whom they have not believed? And how shall they believe in him of whom they have not heard? And how shall they hear without a preacher?" (Rom. 10:13-14)

The calling here is not a vocal cry but obedience to God.

Jesus said, "Not every one that saith unto me, Lord, Lord, shall enter into the kingdom of heaven, but he that doeth the will of my Father which is in heaven." (Matt. 7:21)

Paul was told by Ananias, "And now why tarriest thou? Arise and be baptized; and wash away thy sins, calling on the name of the Lord." (Acts 22:16)

When man obeys, he is calling on the Lord. His faith is in action.

Governor favors delay of consolidation

Governor Bill Allain said this week that he endorses the State Board, of Education's proposal to give it the discretion in any decisions regarding school district consolidation and that he supports the Board's' opposition to a three-year delay of consolidation beyond the July 1, 1986, implementation deadling set in the Education Reform Act.

"I favor changing the law from 'shall' to 'may' in terms of mandating school district consolidation. This change would leave the decision on consolidation in the hands of the State Board of Education, a constitutionally created board that won overwhelming approval of the people of Mississippi when created. This board should be the authority for education in this state," Governor Allain said.

The school district consolidation proposal was approved by the State Board of Education last Friday on a . vote of 8 to 0.

"We have repeatedly said we would take the recommendations of

the Board of Education in this matter, and I fully support their suggestions. This change would give the board the discretion of delaying consolidation in certain areas of the state where there are legitimate complaints regarding the consolidation of districts. The board can resolve these concerns on a districtby-district basis. I trust the Board of Education to make fair and honest evaluations of these cases and do what is best for the schoolchildren of our state." Governor Allain said.

"Again, let me caution against any efforts to dismantle the Education Reform Act. While I believe the attempts to change the consolidation section of the law were created from true concern for the well-being of some rural areas of the state, we must maintain a steadfast commitment to the full, uninterrupted implementation of this Act. Education is the foundation for every developmental proposal that is initiated in this state," the Governor.

BLACK DANCE

"Dance Black America," a 90-minute program of black dance performed at a four-day festival at the Brooklyn Academy of Music, will be presented on "Great Performances" at 9 p.m., Friday, Jan. 25 on Mississippi ETV.

Narrated by Geoffrey Holder, the program features two rarely filmed

pleces: "Fontessa and Friends" and "Ostrich." The Alvin Ailey American Dance Theater with Donna Wood and Gary DeLoatch perform Louis Johnson's "Fontessa and Friends," and Charles Moore, founder of the Charles Moore Dance Theatre, performs "Ostrich," choreographed by Asadata Dafora and reconstructed by Moore,

Waveland teens shoot for careers in music

Music is more than entertainment for three Waveland youths who have formed a rock 'n' roll band called Challenger.

Danny Carter, Ronnie Dufour and Mike Hincks, all 16-year-old 11th graders at Bay St. Louis High School, want to make their music into careers.

According to Carter, the band's guitarist and vocalist, the three have been playing music together occasionally for about three years and formed the band six months ago.

Challenger rehearses three or four times each week at the home of Dufour's mother, Della Smith. The band plays mostly what its members term "radio rock" and original

The radio rock consists of songs by artists including Rick Springfield, Asia and April Wine and older songs by the Beatles and the Who.

The original music is written by members at practice sessions, "We start with a few guitar riffs, then the drummer adds a beat and we take it from there," Dufour explained.

Our parents worry that the band might interfere with school, but it's like an extra for us, like football," Carter explained.

Carter, son of Mr. and Mrs. Larry

Carter, said his parents are afraid he will spend more time on music than studying, but he sees his work in music as an investment in his

"It's the same for all three of us." said Hinck's, son of Margaret C. Hincks, "In my case, for example, my mom approves of a music career but my dad is afraid I'll give up in school.1

"At first we were just fooling around, but we're at the point now where we're serious about this. We want to grow and expand, to become known," Carter said.

Du four, the drummer, explained some of the problems in putting a band together. The first is accumulating the needed equipment.

Although Challenger's members have supplied the basic instruments and sound equipment, the band is currently trying to raise money for a public address system.

A second problem is finding work. Because the musicians are only 16 years old, they have difficulty landing jobs in the bars and lounges where many Gulf Coast area bands

"Politics are against us there." added Carter, who commented that pending legislation changing the legal drinking age to 21 could cause further problems.

"It's sort of hard anyway because we're hearing a lot of people say things like 'what do kids know' but we respect ourselves and know we can do it," he said.

"We have to take the same sort of thing from some of the people at school. They make fun of us and put us down because we're doing

something different," Dufour added.

The band members say youth does not necessarily mean inexperience. Hincks, who says other members of his family have played in bands or worked in the recording industry, sald he started playing music at a young age and has worked with a band called Red Moon.

"I have a grandfather who has a

recording studio and one day when I cks, who plays bass gultar.

Carter said Hincks got him started ed to play the drums when he played snare in an elementary school marching band. Both played in a band

The three say their immediate was just little I got locked in I just plans for challenger include adding started messing around with the a new member, 17-year-old guitarist guitars and stuff in there and I've Donnie Hyde of Waveland; and been playing ever since," said Hin- recording a demo tape at a local studio next month.

In addition, the band is in the proplaying the guitar and Dufour learn- cess of arranging several performances, including one at the Bay. Junior High auditorium.

The band members can be concalled Rage prior to forming tacted through Della Smith or Pat Eddy at 467-2577.

VOCALIST-Danny Carter supplies vocals for Challenger in addition to playing his guitar.

QUESTION - Which of these factors appear to help protect against coronary heart disease?

a) Weight loss and exercise b) Smoking cessation

c) Moderate drinking d) All of the above

ANSWER - A recent study funded by the National Heart, Lung, and Blood Institute has shown that weight loss, more exercise, smoking cessation, and moderate drinking (one or two drinks a day) are link-

ed to an increased level of high density lipo-proteins which may clear away cholesterol deposits from walls in the coronary arteries, thus lowering the risk of a heart

However, NHLBI Director Robert J. Levy, M.D., cautioned against increasing alcoholi consumption since, he said, alcohol created other health risks. He noted that even moderate drinking has been linked to higher blood pressure and pointed out that higher alcohol intake has been associated with a variety of health hazards and an increase in the death rate.

Correct answer - d.

QUESTION - What is a "roach

a) Marijuana cigarette

b) Drug supplier or dealer

c) Hypodermic needle d) Street name for LSD

ANSWER .- Because of its coarseness, marijuana cigarettes are made with a heavy grade of tobacco paper. These 'joints" are usually handrolled, closed on both ends, and smoked extremely short.

Marijuana smokers try to hold the smoke in their lungs as long as possible to get the most effect from the drug, The burned remnant of the "joint" is known as a "roach; and the small tweezer-like instruments used for holding these remnants are called "roach clips." They are displayed and sold at drug paraphernalia stores, called

Gulfport restaurant sponsoring child fingerprint session

Dave Jones, managing partner of the Rax Restaurant in Gulfport, has invited Hancock County youth to participate in a "Rax Prints Kids" community service project Saturday.

A number of Gulfport reserve police officers and Rax employees will be fingerprinting children at the Gulfport restaurant from 9 a.m. until noon. Rax is located at 2511 25th Ave. (Hwy. 49), Gulfport.

With the written permission of a parent or guardian, a child's finger-prints can be made. Parents can then keep this record, along with a picture, as a means of permanent identification of the child.

Charlie Rogers, records supervisor for the Gulfport Police Department, explained, "Fingerprints remain the same throughout life; so they are an effective way of identifying youngsters who cannot or will not identify themselves."

Uncle Alligator, the Rax children's menu mascot, will be on hand throughout the three-hour fingerprinting session with balloons and free drinks.

"This program is part of a nation-wide effort to locate the one million children that disappear each year. Fingerprinting has proven to be crucial in identifying missing or kidnapped children, and Rax is proud to be a part of this important community project. We urge parents to use this free service," Jones said.

Rax Restaurants operates 20 outlets throughout the Southeast, including two on the Gulf Coast, in Biloxi and Gulfport.

Personally, We Think You Deserve A Different Kind of Hospital.

Most people think that the worst thing about going to the hospital is ... going to the hospital. We think you deserve something better. Our medical staff is top-flight. Exceptionally skilled. Thoroughly experienced. Our technology is state-of-the-art-from digital angiograms to computer-aided laboratory analysis. We offer the advantage of a convenient location, and the assurance of management by American Medical International. But all that doesn't mean we equate professional care with impersonal treatment. Quite the contrary. While we're big enough to provide a broad range of superb medical services, we're not so big that human concerns get lost in the shuffle. In fact, as healers, they're our first concerns. So, we give you the kind of attention that makes going to the hospital a much more comfortable experience. At Garden Park, health care is every bit as personal as it is professional. That's what makes us a different kind of hospital. The Difference Is Entirely Personal.

ETV Brief

OPERA IN STEREO

The third "Live from the Met" presentation this season will be Zandonai's "Francesca da Rimini" at 8 p.m., Wednesday, Jan. 30 on Mississippi ETV.

Subtitled in English, it also will be stereo simulcast on Public Radio in Mississippi (PRM). The opera was taped during a live performance at the Metropolitan Opera last April 7.

Featured in the cast are Renata Scotto, Placido Domingo, Cornell MacNeil and William Lewis. James Levine is the conductor.

Composer Riccardo Zandonai was spotted by his contemporaries, including the Milan publishing house of Riccordi, as a successor of Puccini in the Italian "verisimo" (realism) school. Despite always having been considered an exponent of verisimo, Zandonai was actually linked stylistically with causes not only adherent to reality, but also to mythological and legendary subjects that extended beyond

OPERA IN STEREO

The third "Live from the Met" presentation this season will be Zandonai's "Francesca da Rimini" at 8 p.m., Wednesday, Jan. 30 on Mississippi ETV.

ETV Brief

Subtitled in English, it also will be stereo simulcast on Public Radio in Mississippi (PRM). The opera was taped during a live performance at the Metropolitan Opera last April 7.

Featured in the cast are Renata Scotto, Placido Domingo, Cornell MacNeil and William Lewis. James Levine is the conductor.

Composer Riccardo Zandonai was spotted by his contemporaries, including the Milan publishing house of Riccordi, as a successor of Puccini in the Italian "verisimo" (realism) school. Despite always having been considered an exponent of verisimo, Zandonai was actually linked stylistically with causes not only adherent to reality, but also to mythological and legendary subjects that extended beyond

USM publishes brochure aimed at adult student

Adults are flocking to college classrooms in steadily increasing numbers and the University of Southern Mississippi, recognizing this trend, has published a new brochure aimed at the prospective over-21 student population.

The non-traditional or adult student population at USM is increasingat the rate of 2.5 percent per year, according to Dr. Charlotte Tullos, director of Adult Services.

Adult students include those returning to college or entering for the first time, but it is the second group at whom USM has directed the focus of its new brochure that emphasizes, "Whatever your age, lifestyle or academic interest, USM has a program just for you."

. Bud Kirkpatrick, director of public relations at USM, said the new publication describes a variety of opportunities, in addition to information about campus services devoted specifically to assisting adult college students.

"The non-traditional or adult student is very hard to reach with information about the opportunities available at USM," explained. Kirkpatrick. "They are not in any of the places you reach the traditional student: senior class meetings, high school day, junior college visits, career days and similar events.

"These people are in the general public, and they have different needs and a greater variety of needs than the traditional student," he continued. "So, we have developed this brochure to help communicate with this special group."

Kirkpatrick said non-traditional college students often include

O'Brien Foundation

ty, homemakers, recent retirees, individuals preparing to become selfsupporting, single adults, persons seeking to enrich their lives or those looking for a change of lifestyle.

Also he noted, there is a growing number of adults whose education has been interrupted at various stages of their lives by the demand of earning a living, raising a family or pursuing a career.

"These people need to know that USM has opportunities for them and services to assist them in getting ; back into college," said Kirkpatrick.

"This publication is a test, as we continue to determine the best ways to reach these individuals who are spread so wide geographically," he added. "In addition to offering the publication through the media, it has been direct-mailed and will be on a 'take-one' basis at some locations."

The brochure outlines USM's International Studies Program, which includes a variety of study-abroad experiences such as an archaeological excavation in Israel: spells out available services for adult students; emphasizes short courses, travel programs and credit programs available through USM's Division of Continuing Education; and discusses various advanced degree programs.

Of particular interest to singles who may be prospective students will be a Singles Unlimited Seminar offered by Continuing Education.

Persons interested in receiving the new publication may receive a copy in the mail by calling 266-4491 during normal office hours or by writing USM Public Relations, Southern Station Box 5016, Hattiesburg, Miss. 39406-5016.

Golden Eagle women to tackle ambitious '85 tennis schedule

Youthful experience will be very much in evidence when the University of Southern Mississippi women's tennis team opens what fifth-year head coach Helen Grant calls the school's most ambitious schedule

The schedule was released this week by USM athletic director Roland Dale and includes 30-plus dual matches and two tournaments.

The Lady Eagle netters will open the season Feb. 12 at home against UNO, will play in the USM Invitational in March, and end the season in mid-April in the Metro Tournament in Memphis.

Grant, whose team finished 16-9 a year ago, lost only the number four player from last year's team, and is looking forward to what she calls 'youthful experience' to improve on that record.

"I think we'll be an improved team this year," Grant says. "We have a lot of depth, and that always helps. Most of the people we have coming back will be sophomores with a year of experience. We lost several close matches last year, and I think the added experience will be a real plus for us."

Returning players include Laurel sophomore Kim Pope and Corinth senior Antrice Kay. The two alternated between the one and two play-

ing spots last season. Also back are Tallahassee, Fla., sophomore Kim Taylor who played number three last year; Slidell, La., sophomore Shelly Porter who played number five; and Kenner, La., sophomore Christy Waters who played the six position.

Gone is Laurie White who played the number four spot last year, and coach Grant will rely on junior college transfers and walkons to fill that spot and provide depth.

The complete schedule includes:

Women to tackle 34-game softball schedule at USM

Teams such as Florida State, Nicholls State and Northeast Louisiana highlight a tough 34-game women's softball schedule announced this week by University of Southern Mississippi athletic director Roland Dale.

The Lady Eagles will use six starters, four other returning letter winners and two transfers in their effort to improve on the 12-19 record posted last season.

"We were young last year." commented head coach Laura Porciello who starts her sixth year in charge of the Lady Eagles. "We've got six starters and two transfers who will make a difference for us this year." Leading the way for the Lady Eagles will be catcher/3rd baseman Joan Copeland, a 5-7 junior from Huntsville, Ala. who hit .340 last

"Joan is the all-around player," said Porciello. "She does it all. She made only one error last season."

Other key personnel for the Lady Eagles will be Amy Musson-Boutwell, 5-8 junior pitcher/3rd baseman from Lumberton; Debbie Anderson, a 5-4 sophomore shortstop from Milton, Fla.; Marti Jahnke, a 5-8 junior 1st baseman from Petal: Kirsty King, a 5-6 sophomore out-fielder from Jackson; Robin Whittaker, a 5-6 sophomore pitcher from taker, a 5-5 sophomore pitcher from Nashville, Tenn.; Donna Legg, a 5-5 senior pitcher from Harselle, Ala.; Kelli Harper, a 5-5 junior from Hat-tlesburg; Kim Richards, a 5-7 sophomore 3rd basemanifrom Mary Esther, Ma.; and Rosanne Samles, a 5-7 junior 3rd baseman from Cosan Speins

"This is the toughest schedule we've had since I've been here," added Porciello. "But with the personnel we have, I think we will have a successful season.'

The Lady Eagles open the '85 season against Southeastern Louisiana Mar. 7 in Hammond, La., and will compete in two tournaments, the Florida State Invitational Mar. 22-24 and the Miss. Univ. for Women Invitational Mar. 29-30. Other teams included in the 34-game schedule include Tennessee Tech, Bradley University, Grambling and Mississippi State.

Jackson State baseball clinic to feature major league stars

Jackson State University will host a Mets. baseball coaching clinic Saturday manager Frank Robinson and other major league standouts.

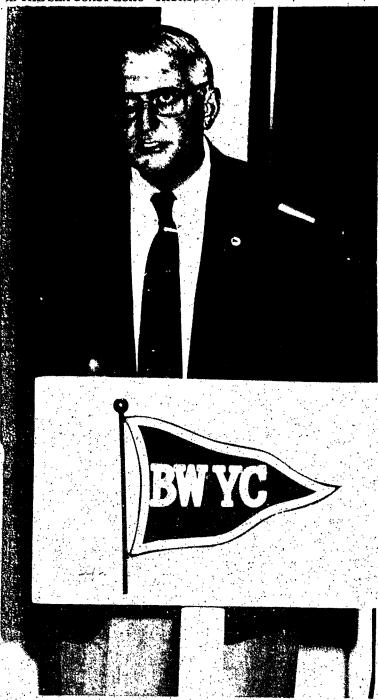

The clinic, which will be held in JSU's Athletics and Assemble Center and on JSU's University to be a tremendous success." Park Baseball Field, is scheduled to run from 9 a.m. to 4 p.m.

In addition to Robinson, other clinicians are Chicago White Sox Infield Coach Eddie Brinkman, San Francisco Giants hitting instructor Tom McCraw, Milwaukee Brewers' catcher Ned Yost, Oakland A's pitcher Ray Burris, John Young of the Texas Rangers and Mike Feder, the general manager of the Jackson'

"We feel that this will be one of the featuring former major league best baseball clinics in the country," said Tiger head baseball coach Robert Braddy. "We are bringing in . some of the best baseball minds in the country and we are expecting it

"I am happy to be coming to Jackson, Mississippi and working with the clinic," said Robinson. "I have heard a lot about Jackson State's baseball program and some of the major league prospects Braddy has produced and I am excited about working in this clinic."

The registration fee is \$25 for a head coach, \$40 for a coach and his staff and \$5 each for players.

Ten-panel Audubon exhibit on display at Bay library

"Audubon in Mississippi," an exhibit circulated by the Mississippi Department of Archives and History, is displayed in the Crawford Room of the City-County Library in Bay St. Louis.

The ten-panel exhibit was researched and designed by Donna B. Dye and Susan Fugate, staff members of the State Historical Museum in the Old Capitol Restoration, a division of the Archives Department.

John James Audubon was a wellknown American naturalist. He came to Mississippi in 1820 at the age of 35 in pursuit of his dream of portraying the birds of America.

He settled in the Natchez area after securing his passage to the

In order to support himself, his family and his dream, Audubon established himself as a teacher of a variety of subjects, including drawing, dancing, fencing, and French.

At one time Audubon had dancing students numbering 60 in the town of Woodville alone. His wife assisted in improving the family financial condition by teaching needlework.

Audubon's style and technique, his philosophy and his work, are all a part of "Audubon in Mississippi," an exhibit which may be seen at the library until Feb. 21.
